

Newsletter # 5

Dear friends,

This is newsletter nr 5 from the i-coin project, since last newsletter was published we have had our second meeting in Lithuania, the meeting and the workshops went out very well. The meeting and the arrangements were perfect arranged by Ramunas from Lithuania and Raino from Finland

Next meeting will be in Kotka, Finland in the beginning of March.

Financial information

Now we have received the ERDF funding for Milestone 1 from the Joint Secretariat and we have forwarded the money to the partners.

The expenditures until 31st of October are 34% compared to the budget for Milestone 1 and Milestone 2.

General information

The I-coin project-site has been launched directly after the meeting; all partners have had their password to login. This project site is for us as a partner to share whatever material we want. We have the possibility to create special work areas where people from a special work package for ex WP3, discuss items only concerned to people involved in that work package. All material in the project site will be just for us who has the login.

I'm looking forward to here from you all what has happened from now until Newsletter #6. Newsletter 6 will be distributed just before Christmas time.
